

Road Angels Tailpipes

Monthly Newsletter of Who, What, Where & When

From the Prez

As always, welcome to this month's issue of the Tailpipes.

Unfortunately, this year's Christmas Party had to be cancelled due to a snow storm. Thank you to Tom and Donna Spalter for your willingness to open up your beautiful home to the Road Angels for the Christmas Party.

Our cruise nights will begin again on April 10, 2026. As usual, we will have a DJ, Club Members selling 50/50 tickets and the Dublin Volunteer Fire Company will once again be selling hot dogs, hamburgers, steak sandwiches, etc. Refer to page 5 of this Newsletter. Mark your calendars. We look forward to seeing you there.

We are already planning our 2026 Car Show on July 26, 2026 at the Dublin Volunteer Fire House Property. Hope to see you there. Stay in touch for updates.

The Club agreed to bring a canned food good to our meetings each month to be donated to the Food Larder at the Grace Church in New Britain. This month, we collected **79 pounds** of food and goods. With an ANNUAL GOAL of 1,500 Lbs., the club has donated **1,586 lbs.** this year. Way to go Road Angels and **THANK YOU** for your continued support!

Thank you for your continued interest in the Road Angels of Doylestown and, of course, your support as we strive to support local non-profit organizations. Due to yours and our sponsors support, this year, the Club was able to donate approximately \$10,000 to local charities and organizations

*Merry Christmas
&
Happy New Year!*

Garage Products can be harmful to your health

Many spray cans you have in your garage can contain dangerous chemicals with many of these products being available over the counter. As a part of using these products, Safety Data Sheets should be acquired from the vendor so you can better understand how to safely use and handle the product. **As a part of safe handling, latex gloves or nitrile gloves, if you have sensitivity to latex, should be used.** Some of the common products used in a garage include: gasoline, carburetor cleaner, chlorinated and non-chlorinated brake cleaner, electric motor cleaner, Loctite thread locking compounds and battery acid. **If you do get chemicals and compounds on your hands, due to the possible absorption through your skin, immediately wash your hands.**

Gasoline, as an example, contains organic solvents that can easily enter your body through your skin. Worse, gasoline contains Benzene, which is a proven carcinogen. Other products in gasoline such as Toluene can cause damage to kidneys and liver.

Carburetor Cleaner contains a "cocktail" of dangerous and powerful solvents. Most of these are highly volatile and pose a toxic inhalation danger and must be used with adequate ventilation. Avoid using these products in closed garages.

Brake Cleaner, both chlorinated and non-chlorinated, contain solvents that enter the body through skin or inhalation and may cause cancer, attack the central nervous system and attack kidneys and liver. They also pose a real fire hazard.

Fortunately, many of the dangers these chemicals present can be reduced or eliminated with a few simple safety precautions. Wash your hands thoroughly after handling chemicals. Avoid touching your face. Wash your work clothes separately from other clothes. Use latex or nitrile gloves, safety goggles designed for chemical use.

They can be acquired through Grainger or a good Hardware store. When using solvents, make sure there is plenty of ventilation and fresh air in the work place. Be sure to keep your work area clean and protect yourself.

Upcoming Car Events

January 16 – 18, 2026

Auto-Mania - Carlisle Events

Friday – 12 – 9:00 PM

Saturday – 9:00 AM – 6:00 PM

Sunday – 9:00 AM – 3:00 PM
